Fusion™: A New Handle On Plates

Hampton's international plate Club Packs are the answer to any facility's plate needs. The Fusion Rotational Grip Plate Club Pack combines weight plates with specifically designed racking. Hampton Fitness has not only improved free weights, but also the way to purchase them.

Fusion Club Pack

While a few companies have improved ease of use by adding holes to their plates, Hampton took this idea a step further by developing a grip plate with *rotational ergonomic grips*. Modernization is what Fusion brings to the facility, with an unbreakable stainless steel hub and inlaid rotational grips. The Club Pack features a revolving *Spin-Rack™* that spins smoothly on heavy-duty tapered roller bearings for space efficiency and ease of plate selection.

Dura-Lock End Cap

Hampton's unique Dura-Lock end cap system makes Eclipse virtually maintenance free.

The Eclipse™ Advantage

Get the weights that show your club is as serious about modernization as it is about weight training. Eclipse pro-style dumbbells and barbells from Hampton Fitness are the most modern free weights available—combining form, function, and style for a high-performance product even your toughest clients will appreciate. Designed in America by mechanical engineers and fitness experts, Eclipse incorporates Hampton's ultra-secure Dura-Lock™ end cap as well as our patented ergonomic urethane handle, the Snug-Grip™.

Available with Snug-Grip

Snug-Grip's contoured handle supports the hand's natural arch, creating a comfortable, solid grip. The outside shoulders of each handle have been expanded to 50 mm, which centers the hand and prevents the painful impact caused by old-style handles that can slide during workouts. Since you don't need to grip the weight so tightly, you can focus more attention on the muscle you're targeting.

Eclipse can be customized with the following handle options:
